

Medical Malpractice

At the law offices of Salgado Injury Law, we work to protect your rights in cases involving the occurrence of a medical malpractice. We know that injuries caused by a medical malpractice often have devastating effects on the person and their families. As a champion for our clients, we are well equipped to navigate the legal landscape to provide our clients with the legal tools needed to obtain the maximum level of compensation for their sustained injuries. Oftentimes cases involving the occurrence of a medical malpractice include, but are not limited to:

- Prenatal injuries to the baby or mother
- Errors involving the use or the prescribing of prescription medications
- False diagnosis or failures to diagnose that lead to proper medical treatment being provided
- Complications with surgery

Each medical malpractice case handled by the Salgado Injury Law is done so with the use of the latest legal tools and understanding to ensure maximum compensation under the law. By using these highly developed legal skills, attorney Eduardo Salgado and his team deliver winning results for his clients time and time again.
